Dr. John Jay Harper is a clinical hypnotherapist, futurist, research scientist, and writer with the *American Delphi Academy* and *Reality Press*. Dr. Harper has written one of the most unusual and controversial books you’re likely to find. *Tranceformers: Shamans of the 21st Century* claims to have begun by contact with a former optics physicist colleague. The incredible part is this colleague died seven months before Dr. Harper’s contact. Normally I would discount this as another interesting story of life after death. The difference is the information just might be our last best hope of survival in a world that seems to be headed for self-destruction. www.JohnJayHarper.com 4/22/06

Jim Marrs book *Rule by Secrecy*, examines the shadowy figures that actually control our world. His book *Crossfire* became the basis for Oliver Stone's award winning movie *JFK*. In 2004 Jim has turned his sights on the 9/11 events that have forever altered the very fabric of America. *Inside Job the Unmasking of the 9/11 Conspiracies* was written in 2004. *The Terror Conspiracy* brings us up to date as more information is brought to light. The government conspiracy story of 9/11 is no longer believed by the world or even the American public. 9/11 has been the excuse for our invasion of Afghanistan and Iraq. 9/11 is the reason given for the powers given our President by the Patriot Acts. Now discover the truth about this event. www.jimmarrs.com www.disinfo.com 11/25/06

Michael Mandeville in the mid 90's set out to prove or disprove the validity of Edgar Cayce's clairvoyant readings. After 5 years of study Mandeville, using objective scientific documentation, established a 92% accuracy rate. From 1994 until 2000 Mandeville outlined the "big picture" in his 3 volume *Return of The Phoenix*. During this period Mandeville discovered and proved his original theory of "vortex tectonics".

He demonstrated how “Chandler’s Wobble” increased volcanic activity and earthquakes four fold. This work is published in his *The Earth Changes Bulletin*. His latest work, *The Coming Economic Collapse of 2006* is based on the “25 year depression cycle” as described by Edgar Cayce and his 30 years study of history, politics, economics, business, and trade. www.MichaelMandeville.com 2/11/06

Captain Eric H. May MI/PAO USA either saved the world from World War III and is an unsung hero in the manner of General Smedley Butler, or he is a very deranged individual. Listen to what he has to say about the planned “event” in Texas City. Most of us were expecting an “event” and the media was gearing-up for something that simply didn’t occur. The end result was Mr. Bush had the Katrina aftermath and the Dubai Ports deal that has left him a lame duck President while his party controls congress and he has 3 years left.
